

VISION FUND USAGES

Over & Above Giving

LARGEST NEED - 40%

Gathering

Gathering at The Well is not just about a building, it's about the people! Whether we are able to find a building or not, we see the ability to gathering together in one space. This might mean the funds go towards the rent of a temporary space or the down payment of a more permanent home -- however it is that God provides for us.

LARGEST VISION - 20%

Church Planting

We believe that the local church is God's means of redeeming the world. The best way to reach the world is by planting churches. Our desire to plant 100 churches nationally and 100 churches internationally in the first 50 years of our existence is a big goal that only a big God can make possible. We want to use additional funds to help accelerate this vision and send out even more church planters!

LARGEST IMPACT - 15%

Serve Austin

We see what the city could be and we want to be a blessing to it. Ultimately, our hope in serving is that others would hear and experience the gospel and the love of Christ through us. We hope to use funds to not only increase the level of our impact but also the width of our impact by empowering our CGs to serve more in their communities!

LARGEST FOCUS - 25%

Minority Residents

One of our greatest desires as a church is to train, develop, empower, and launch the next generation of leaders. We realize that we have the unique opportunity to do what many other churches struggle to do -- develop minority leaders. We plan to use these funds to help support minorities who are growing in their faith and ministry skills and are interested in missions, vocational ministry, our residency program, etc.
